TITLE INDEX

-A-

A bout the solutions of operator equations	42
The apparition of neural network on the contingency analysis of Iraqi supper grid network	319
Adaptive liner channel equalization for wireless commurication systems	354
A generalized yield criterion for orthotropic ally RC rectangular slabs under combined	501
All ceramic alternative to convert ional metal-ceramic restorations	231
Analysis and modeling of thermal effect on the parabolic reflector antenna performance	396
Analysis and simulation of cylindrical micro strip antenna for spin-stabilized satellites	365
Analysis and simulation of single phase inverter controlled by neural network	308
Analysis of adaptive down ling MUL Tiuser mimo wireless communication system	412
Analysis of composite bridge superstructures using modified grillage method	456

Analysis of cost functions of roller compacted concrete dams	483
An analysis of errors in using phrasal verbs made by fourth year students at the University of Tikrit	18
Analysis of induction heating system based on artificial neural networks	317
Analysis of parabolic arch girder- steel bridges by the grillage method	446
Analysis of reinforced concrete beams with welded wire	496
Analysis of satellite – aircraft communications using ray tracing model	356
Analysis of skew variable thickness folded plates by higher order finite strip method	437
Analysis of skew variable thickness folded plates by higher order finite strip method	437
Analysis of soil- structure interaction problems by the boundary element method	473
Analysis of thick rectangular plates on two parameter elastic foundations	342
Analysis up to failure of horizontally curved composite pre cast girder and cast- in- place slab with partial interaction	472
Analysis up to failure of horizontally curved composite steel beam and concrete slab	478

The apparition of neural network on the contingency analysis of Iraqi supper grid network	319
Application of Monte Carlo simulation method for finding reliability indices of the Iraqi (400 KV) network	309
Applying fuzzy rules to control multimedia (image and data) of Ethernet	405
appropriateness of lexical items in the glorious quean with reference to their realizations in English	2
An approximate solutions of fuzzy linear Fred aim internal equations	72
The artins' exponent of a special linear group SL (2,2k)	71
Artiness' exponent for ang arbitrary characters of finite special linear group	75
Comparison of manqué and simple estimator of the error variance in the general linear model	16
Assessing test taking skills used by Iraqi EFI college students	22
Assessing he of efficiency of machine translation software in translating modern English scientific	3
Assessment of developmental milestone in children less than 2 years in Tikrit district	254
Assessment of load capacity of reinforced stone	468

column embedded in soft clay	
Assessment of nutritional status for secondary school adolescent females by mid upper arm circumference body mass in relation to index in Tikrit district	156
Assessment of quality of life of diabetic patients type-1-in Mosul city	119
Assessment of the clinical significance of lipid peroxidation antioxidant enzymes and N-acetyl-B-D-glucosaminidase in sera of patients with urolithiasis	142
An assessment of the English language course currently taught at the college of law: university of Tikrit	20
Assessment of the psychosocial problems of the nurses- rescuers at ambulance department in Baghdad city	120
An assessment of the techniques using teaching English drama the university of Tikrit	8
Assessment of zinc and copper concentration in serum of a topic patients to kirkuk city	216
Automated inspection planning for 3D mechanical parts	422
Automatic voltage regulator based on FPGA technology	398

-B-

Bacteriological and genital study of GBS and E. coli isolated from birth canal at delivery time	183
Bacteriological and immunological study of bacteremia in patients at karbala city	197
Bacteriological study of nose comical urinary tract in faction among catheterized patients in Tikrit hospitals	174
Bacteriological study streptococcus mutant associated with dental caries caries and periodontitis in hilla a city	177
BC 1-2 on co protein expression in breast cancer and its relation to estrogen and progesterone receptors	223
Nearing capacity of strip footing on Geogrid-reinforced sand slope Nearing capacity of strip footing on Geogrid- reinforced sand slope	445
Bearing capacity of two closely spaced strip footing son on geogrid reinforced	476
Behavior of fiber reinforced Ferro cement slabs under static and cyclic loading	451
Behavior of steel beams embedded in concrete	479
Behavior of steel high- rise buildings with inclusion of warping restraint	455
Behavior of thin RC shell-slab roofing system with steel rod connection	477
Behaviour of orthotropically reinfor having one free	494

edge	
Biaxial testing of fiber composites to evaluate the fxy factor of tsai-wu stress failure theory	270
Biochemical study for serum oxidant antioxidant status in patients with B-thalassemia in Thi-Qar Iraqi	189
Biological evaluation of prodigious in extracted from serrate marcescens as on antimicrobial and anticancer agent	181
The biomechanics and modeling control of human eye movements	126
The black characters quest for identity in selected novels of Toni Morrison	585
Building and testing laser comparator	335

-C-

Calculational of MTF for optical disk modulator by using fractal function	330
Calculation of some parameters in a CW yd doped fiber laser	340
Carriage of group a streptococcus a among children in Tikrit district	176
Causes and some risk factors for delayed first immunization among premature and low birth	151

weight in fans in hilla, Babylon governorate	
Channel estimation and date detection for downlink multicarrier cdma mobile system	372
Characteristic and analysis of signal model optical fiber coupling	389
Characteristics study of quantum cryptography using entangled photons	90
Characterization of cell mediated immune responses induced by visceral leishmaniasis major in Iraq	118
Design analysis implementation of the N₂ laser	341
Charged particles interactions for medical radioisotopes production purposes	79
Charge exchange in atom ion and cluster surface scattering process: Wave packet propagation, configuration interaction and rate fraction methods	89
Child health modernity in the city of Baghdad, factors influencing it, and its influence on child's health	153
A clinical study of the effect of some antihypertensive drugs and medicinal plants on patients with essential hypertension	159
A clinicopathological study of bone marrow angiogenesis in patients with acute leukemia by.	190
CNC-tool path generation for free form surface in terms of Bezier surface	417

Collocations in consecutive in terpreting problems and strategies	7
Assessment of the psychosocial problems of the nurses- rescuers at ambulance department in Baghdad city	120
Comparative biochemical study for lipid profile and in sera of secondary amenorrhea patients healthy control	138
A comparative study between health education needs and current situation in kirkuk city	157
Comparison between linear and nonlinear 3.D finite element analysis of raft foundations	507
Comparison between effect of bromocriptine and cabergoline on serum prolactin lvl, livr and revel faction tests in patients with hyper prolactinemia	165
Comparison of manqué and simple estimator of the error variance in the general linear model	61
Complete arcs & surfaces in three dimensional projective space over Galois	73
Comprehensive study on vector control of linear induction motor	318
Computer based configuration for Cisco routers	379
The concept of democracy in Walt Whitman's leaves of grass	370
The concept of landscape and its development in the poetry of Seamus Heaney	568

Conduction heat transfer in porous media with embedded concentrated heat source	276
Consolidation characteristics of unsaturated soil	433
Constructing an analytic scoring scheme for EFI university instructors of literature	29
Construction of radiometer system	346
The convergent and discrete maximum principle of finite element method for solving the convection diffusion- advection equation	50
A conversational analysis in Becket selected plays	579
Copolymerization of modified unsaturated polyester resin with same vinyl monomers	97
Correlation between settlement calculations using young modulus of elasticity versus compressibility indices	450
Coupled dynamic analysis of Al- Adhaim earth dam	465
Crisis and architecture of effect war on urban patterns	561

-D-

Data fusion of very high resolution satellite images for environmental applications	295
Delayed puberty in thalassic patients	191

Deposition and study of physican properties of cu,s thin films prepared by chemical bath deposition	86
Design analysis implementation of e N₂ laser	341
Dsign and analysis of sigma delta modulator for GSM applications	386
Design and implementation A sensor less in tell gent soft starting system of induction motor	326
Design and implementation of a hearing aid circuit	128
Design and implementation of a multi purpose telemetry system using different communication scenarios	369
Design and implementation of an instructional program on direct current motors	325
Design and implementation of coding system for optical fiber communication	363
Design and implementation of free space simplex video- laser communication system	347
Design and implementation of max generator for laser applications	353
Design and implementation of model reference adaptive controller	390
Design and implementation of PLL synchronizer based on software de find radio (SDR)	382
Design and implementation specified robot for civil engineering work (wall painting process)	448

Design and simulation of code tracking algorithms for CDMA system using FPGA	381
Design and simulation of linear fractal antenna array using fractal elements	366
Design and simulation of mimo of dm receiver employing turbo equalization/	374
Design simulation of multi-Pico net UWB systems	368
Design & study of fractal optical modulator for infrared transmitted signal	94
The design, construction and operation of a clinical operating table	123
Designing an instructional program for economic dispatch of operational power system	327
Design of a digital circuit to share four sim-carol lines for one mobile programming	408
Design of antireflection coatings on different substrates	332
Design of switched- mode power supply for tea CO₂ laser	384
Design study of various synthetic aperture configuration	388
Detection of buried pipes and soil classification using remote sensing	458

Detection of campylobacter spp. In broiler as a soirée of children diarrhea using polmrse chain reaction PCR technique in Al- Diwanyiah governorate	521
Detection of shiga toxin producing Escherichia coli isolated from children and cattle using pcr technique	173
Determination of Epstein-barr virus (EBV) and load as a marker to follow up (abv) related Hodgkin's and non Hodgkin's lymphoma patent's using Quantitative competitive polymerase chain reaction technique	168
Determination of mass transfer coefficient for bubble column (Air- water system) using image processing	525
Development of porcelain restorative material by using CO₂ laser	349
Development of 7020 Al-Al₂O₃ composite by atomization and stir casting processes	557
Diagnostic and serological study on brucella mellitus's isolated from human and animals in was sit province	111
Diagnostic study of type 1 and type 2 diabetes mellitus using medullar markers	196
Diagnostic value of antibodies to citruline containing peptides in patients with rheumatoid arthritis in nassiriyah, Iraq	208
The difficulties faced by EFI college learners in derivational and in flectional a affixes	27

The difficulties faced by Iraqi EFI university learners in personification	14
The difficulties faced by th Iraqi fourth years university students in ape rating noun phrase shifting and the cross aver principle	36
Digital subscriber liner: design and simulation	362
Direction of arrival estimation using genetic algorithm	299
Distribution of different types of lymphocytes in breast cancer patients with and without toxoplasmosis	224

-E-

Early pregnancy diagnosis in Iraqi river he buffaloes using pregnancy- specific protein B. (PSPP) and progesterone	113
Economy in translating English argumentative texts in to Arabic	6
The effectiveness of drag reducer A gents in turbulent two phase flow The effectiveness of drag reducer A gents in turbulent two phase flow	537
Effect of acute physical exercise on serum lipid profile	147
The effect of aging on hi\human kidney (anatomical and histological study)	130

The effect again on human testis (Anatomical, Histological and ultra son graphical study)	132
The effect of aging on human thyroid gland (Anatomical, Histological and Hormonal study)	133
The effect of a paisa on the vocabulary use of three nassiriya Iraqi Arabic school age speakers: A case study	35
Effect of boundary restraints on the ultimate capacity of square concrete slabs reinforced with minimum amount of reinforcement	504
The effect of Chlamydia pneumonia in faction and over risk factors on prevalence of coronary heart disease in Iraqi	178
Effect of concentration of water soluble polymer solutions on rheological properties	530
The effect of curing time and light intensity on the degree of conversion of poly acid modified composite auin vitro	233
The effect of deep inspiration and forced expiration on Doppler transmittal flow, cardiac out put and on QT,TT dispersion	144
The effect of die profiles on combined forward – back ward extrusion process	418
Effect of environmental factors on design of conventional biological wastewater treatment plant	449
Effect of heating interval and contamination with water on lubricant viscosity in a steam turbine	280

lubrication system

The effect of laser welding on the tensile strength and radiographic analysis of c0-cr repaired joints	238
Effect of magnetic materials on magnetic coupler per for mans	298
Effect of moderate exercise on the level of melatonin, hormones and lymphocyte apotsis in healthy subjects	136
Effect of mortar type on compressive strength of brick masonry prisms	439
Effect of pack cementation gating on oxidation resistance of law ally steel	291
The effect of PH on fluoride release surface hardness of glass ionomer based restorative materials	230
Effect of platelet rich plasma and porpoise on healing of bone defects in rabbits	227
The effect of pre parathion conditions on the physical properties of some popped- ferrites	80
Effect of R-134a- oil mixture concentration on the laminar film wise condensation on a signal and bundle of in-line circular tubes	288
The effect of rule-based teaching student s, per for mance, retention, and transfer of learning in English pronunciation at college level	23
