Studing the laser welding parameters of dissimilar …	**1194**
Study about contamination of certain imported…	**601**
Study and analysis of a protection system for ..	**1430**
Study and analysis of the surface integrity…	**1529**
Study and analysis the intensity time profile…	**260**
Study and calculation the orbital elements of the…	**226**
Study and preparation of solid state dye sensitized…	**264**
Study and survey for radio sources having flux…	**229**

Study for zinc corrosion inhibition in different ..	**1785**
Study of antimicrobial activity for hybrid…	**1342**
Study of flow boiling in parallel micro – channels	**1038**
Study of fluorescence resonance…	**437**
Study of groundwater and slope stability for…	**1699**
Study of grouted pile models in sandy soil	**1646**
Study of herd immunity associated with hepatitis …	**947**
Study of land cover and surface temperature…	**228**
Study of nhr umrformation using seismic…	**554**
Study of operating conditions for oil skimmer…	**1766**
Study of para oxonase activities and their associations ..	**744**
Study of pbx cd1-x secompounds as thin films…	**289**
Study of performance and pollutant emissions of a…	**1074**
Study of physiological histological and immunological…	**570**
Study of some ecological factors on earth…	**620**
Study of some heavy metals concentration and…	**565**
Study of some physical properties of epoxy…	**389**
Study of some physiological and…	**625**
Study of some properties of flame retardant com- posites	**1232**
Study of spatially varied flow towards ..	**1697**
Study of structural and optical properties of cdo….	**396**
Study of superoxide dismutase activity with ..	**763**
Study of surface run off drainage impact on ..	**1676**
Study of the relation ship between hsp 70 gene polymorphisms …	**1280**
Study of the structural electronic and spectroscopic…	**265**
Study of the structural optical and sensing properties…	**312**
Study of the turbidimetric determination…	**476**
Study of thermo- hydraulic behavior of ..	**1132**
Study of thermody namic properties of the interaction…	**460**
Study of wassit subsurface structure using…	**551**
Study of xanthine oxidor eductase activities ..	**748**
Study of x-ray and magnetic field effects on…	**270**
Study on air flow diffusion contaminants in a …	**1110**
Study oxa beta-lactamase genes in…	**1284**
Study the characterization of clgs thin films for solar…	**246**
Study the cytotoxicity antioxidant activity…	**456**
Study the deformation for the even- even…	**317**
Study the effect of (y2-o3 sb2o3 sro) substitution…	**366**
Study the effect of aromatase inhibition in postmenopausal…	**480**
Study The effect of electrode materials on material …	**1518**

Study the effect of glucagon like peptide -1(GLP –D..	764
Study the effect of multi layers deposition…	427
Study the effect of nano materials on the physical …	1210
Study the effect of ranitidine and proan thocyanidin..	1724
Study the effect of sio2 addition on the properties of ..	1200
Study the effect of surfactant materials and…	242
Study the effect of weather condition with different..	1381
Study the effects of the atmospheric and geographic…	222
Study the erystallization fouling and its mitigation ..	1760
Study the hot corrosion & oxidation of the weld Joint ..	1171
Study the optical and electrical properties of…	385
Study the physical properties of (cdo)1-x…	294
Study the properties and attenuation coefficients…	441
Study the signal quality enhancement for acousto…	300
Study the solar wind particles drifts in the…	250
Study the thermal effect on photophysical…	401
Study the variability in some reproductive…	626
Studying the behavior of non- prismatic self…	1645
Studying the contamination and remediation…	1659
Studying the effect of cold plasma on the blood using…	286
Studying the effect of diffusion bonding on the structure ..	1156
Studying the interaction between the coronal…	419
Studying the physical properties of tio2 nano…	237
Studying the requirement of total productive maintenance in ..	1520
Stuy of used lubricating oil regeneration by …	1747
Stylometric authorship based on frequent sentence …	45
Suggest an efficient compression of transformed ..	1744
Suggested improvement techniques for diyala ..	1355
Suggesting a mutual correlation between the…	224
Supervised and unsupervised classification…	306
Surface modification of titanium and titanium…	274
Surface roughness of fiber- renforced polymer …	1018
Sustainable design framework for iraqi construction ..	1592
Sustainable modeling of the maintenance management ..	1566
Sustainable processing to produce different types…	1804
Sustainable solar energy application in ..	1079
Synthesis , characterization and antibacterial ..	829
Synthesis , characterization and antibacterial …	819
Synthesis , characterization and antimicrobial study…	817
Synthesis and characterization of a-fe2o3 nanopartization…	509

Synthesis and characterization of carbon nanotubes…	**462**
Synthesis and characterization of cnt-iron oxide…	**434**
Synthesis and Characterization of como / y alumina ..	**1773**
Synthesis and characterization of grapheme and their…	**510**
Synthesis and characterization of heterocyclic…	**536**
Synthesis and characterization of highly…	**477**
Synthesis and characterization of hydroxyapatite ..	**1663**
Synthesis and characterization of mesoparous ..	**1754**
Synthesis and characterization of mullite ..	**1662**
Synthesis and characterization of nano…	**357**
Synthesis and characterization of new 2,5…	**470**
Synthesis and characterization of new cyclic…	**458**
Synthesis and characterization of new heterocyclic…	**508**
Synthesis and characterization of new…	**534**
Synthesis and characterization of Schiff base…	**503**
Synthesis and characterization of some new..	**1377**
Synthesis and characterization of some new…	**449**
Synthesis and characterization of some new…	**453**
Synthesis and characterization of some new…	**469**
Synthesis and characterization of some new…	**511**
Synthesis and characterization of some new…	**533**
Synthesis and characterization of some…	**467**
Synthesis and characterization of some…	**537**
Synthesis and characterization of zno nanorod…	**293**
Synthesis and corrosion inhibition study of some…	**500**
Synthesis and identification of new metal…	**526**
Synthesis and modeling of temperature…	**1097**
Synthesis and spectral analysis of some metal…	**531**
Synthesis and spectral characterization of charge…	**490**
Synthesis and spectros copic properties of…	**432**
Synthesis and study of some new substituted…	**468**
Synthesis and study of Tio2 – pmma nanohvbrids …	**1431**
Synthesis and study the liquid crystal…	**447**
Synthesis characterization and antibacterial…	**530**
Synthesis characterization and biological activity…	**455**
Synthesis characterization and biological…	**472**
Synthesis characterization and biological…	**474**
Synthesis characterization and biological…	**524**
Synthesis characterization and biological…	**532**
Synthesis characterization and hypoglycemic…	**454**
Synthesis characterization and mesomorphic…	**483**
Synthesis characterization and study anti…	**535**

Synthesis characterization and study of antibacterial…	**528**
Synthesis characterization and theoretical treatments…	**484**
Synthesis characterization and…	**813**
Synthesis of expanded clay as lightweight …	**1664**
Synthesis of modified grapheme oxide and its….	**515**
Synthesis of silver nanoparticles using olive ..	**1274**
Synthesis of some new formazans thiazolidine…	**466**
Synthesis of some new pyrazole derivatives as…	**504**
Synthesis of some new smart polymeric…	**501**
Synthesis of some saccharin derivatives containing…	**486**
Synthesis of zno nanoparticles mixed with…	**278**
Synthises and study pure and doped nickel…	**393**
Synthronization control of chaotic signals in optoelectronic…	**424**
